

Dial A Pest

SDK-Dial-A-Pest Living Wage

SDK Environmental Limited, also trading as Dial A Pest, is proud to announce its accreditation as a 'Living Wage Employer'.

The Living Wage is an hourly rate set independently and updated annually, based on the cost living in the UK. The Living Wage campaign has been running for ten years and has lifted over 45,000 people out of poverty. An independent study of the business benefits of implementing a Living Wage policy in London found that more than 80% of employers believe that the Living Wage had enhanced the quality of the work of their staff, while absenteeism had fallen by approximately 25%. 66% of employers reported a significant impact on recruitment and retention within their organisation. 70% of employers felt that the Living Wage had increased consumer awareness of their organisation's commitment to be an ethical employer.

SDK Environmental is an established provider of specialised support services for multiple local authorities in the South of England. This accreditation signifies an important milestone in SDK's on-going commitment to the well-being and development of all our employees and sub-contractors.

Diarmid Nairn, Managing Director of SDK Environmental states,

"We are fundamentally a people business and exist only to serve our customers. Our ethos and commitment to 'Customer Service Excellence' relies fundamentally on the dedication and loyalty of every staff member and partner. I therefore believe that making this long term commitment is not only a morally correct stance but a practical one given the level of investment and trust we place in all our employees.

Rhys Moore Director of the Living Wage Foundation said

"The benefits the Living Wage brings to staff and business are clear. I welcome the leadership shown by SDK Environmental on this important issue."
